SUPPLEMENT TO AMENDMENT, FILED AFTER ISSUE FEE

Enclosed is a copy of the communication to the Official Draftsman. This submission is to correct an oversight so that the drawings which were previously accepted can be modified to correct figure numbering consistent with the amended application. These drawings submitted herewith are consistent with the amendment to the specification.

In an action by the PTO on 06/18/2004, it was noted that the drawings were accepted (see cover sheet, block 10 – drawings submitted April 2001 are accepted -). Nevertheless, the drawings on file are not numbered consistently with the drawings in the specification since they do not contain a Fig. 11. The specification was modified on November 2003 to correct this off-sequence pattern of figure numbers, making references to Fig. 12 become references to Fig. 11, 13 to 12, and 14 to 13.

On February 7, we received a telephone call from the examiner, stating that the drawings would not be published.

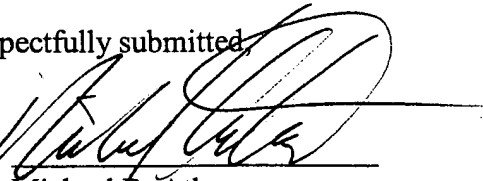

We are now resubmitting the drawings with the figures 12, 13, and 14 renumbered to 11, 12, and 13, respectively, and respectfully request that they be incorporated into the file and published with the patent.

We apologize for any inconvenience this late submittal of drawings may cause.

Respectfully submitted,

TRANSMITTAL LETTER TO OFFICIAL DRAFTSPERSON

Please find enclosed 11 sheets of drawings for the use in the issuance of this patent.

In an action by the PTO on 06/18/2004, it was noted that the drawings were accepted (see cover sheet, block 10 – drawings submitted April 2001 are accepted -). Nevertheless, the drawings on file are not numbered consistently with the drawings in the specification since they do not contain a Fig. 11.
